* EXAMPLE.—A gentleman whose age does not exceed 30, may insure 1,000l. payable on his decease, for an annual payment of 25l. 15s. 2d. and a fraction, if the same age can secure the same sum for an annual payment of 19l. 17s. 6d.

Prospectuses, with the rates of premium for the intermediate ages, and every information may be had at the Head Office in York, or of any of the Agents.

FIRE INSURANCES

are also effected by this Company, on the most moderate terms.

Agent for London, Mr. THOMAS S. NOBLE, Solicitor, 4, St. John-street, Bedford-row.

Agents are wanted in those towns where no appointments have been made. Applications to be made to

Mr. W. L. NEWMAN, Actuary and Secretary, York.

NATIONAL ASSURANCE and INVESTMENT ASSOCIATION,

7, St. Martin's-place, Trafalgar-square, London.
Established May, 1844.

INVESTMENT OF CAPITAL AND SAVINGS.

The object of the Investment Department of this Institution, is to open equally secure and profitable channels of investment for the surplus capital of the affluent, and the provident savings of the industrial classes of the community. To persons desirous of placing their money out at interest, but unused to realize securities, and inexperienced in estimating their value, this Institution offers immediate facilities, and an opportunity of realizing the highest rate of interest yielded by first-class securities, in which alone the money deposited with the Association is employed.

Interest payable in January and July.

CAPITAL STOCK, £500,000.

The Capital Stock is altogether distinct and separate from the Depository Stock in the Investment Department of this Institution. It constitutes, with the Premium Fund, a guarantee for the engagements of the Association, and has been provided in order to render the security of the Assured complete.

FOR SECURING LOANS OR DEBTS.

Amongst the varied and extensive Tables of this Institution will be found one peculiarly advantageous where Policies are required for securing loans or debts. The rate of Premium by this Table will protect the Interest of the Policy-holder from all contingencies, and allow the Life assured to proceed to, and reside in, any part of the world.

MUTUAL ASSURANCE.

Assurances may be effected from 50l. to 5,000l. on a Single Life. Entire profits belong to the Assured, and divided annually. Credits for half the amount of the first five annual Premiums. Medical men remunerated for their Reports. Liberty to Travel, and Foreign residence greatly extended.

COLLEGE EDUCATION.

A Novel Table has been constructed expressly for the use of this Institution, whereby a Parent, by the payment of a very small annual premium, may, in the event of death, secure to a Child, either an Annuity, payable from the age of 15 to 21, or an equivalent amount in money.

Other new and important Tables for Educational purposes, and Endowments for Children, are in course of construction, and will shortly be published.

The Tables for Reversionary and Deferred Annuities, are particularly deserving of attention, whether regarded as a means of providing for a particular Individual, or as a resource against the casualties of age, involving, as it does, the uncertainties of health and fortune.

Full information and prospectuses may be obtained, on application at the Head Offices of the Association, or to the respective Agents, throughout the United Kingdom.

PETER MORRIS, Managing Director.

Applications for Agencies may be made to the Managing Director.

THE PANTAGRAPHIC CUTTING, CARVING, and ENGRAVING COMPANY.—Provisionally Registered. Capital, £50,000, in 5,000 shares of 10 each. Each share entitled to be paid in full.—Offices, at the Company's Works, Ranelagh-lane South, Belgrave-road, Pimlico.

DIRECTORS.

Captain A. Donelan, late Chief Engineer Barrackmaster.
Frederick Widnall, esq. Director of the Monarch Life Assurance Company, 58, Moore-street, Chelsea.
Daniel Holt, esq. 74, Aldersgate-street.
William Hunter, esq. 68, Upper Bedford-place, Russell-square.
Francis Wills, esq. Guildford-lawn, Ramsgate.

Bankers—Barnett, Hoare, and Co. 62, Lombard-street.
Solicitor—Henry Wickham, esq. 4, Tokenhouse-yard, Bank.
Managing Director—Mr. George Searby, at the Works.
Secretary—Walter Turner, esq. Belgrave-road, Pimlico.

This Company has been formed to carry into practical use a patented invention of extraordinary capabilities, applicable to a great variety of important commercial and mechanical purposes.

The patent is for a machine which, acting on the principle of the slide-rest or foot-lathe, is governed and directed by the pantograph, is moved with such facility and exactness in all the directions of the cube, under a final feed of to-ths, that it is capable of producing, in copying, carving, or engraving, a fac-simile of almost anything which may be presented to its operations.

For perspicuity, it may be mentioned that the following are amongst those uses to which the machine is most applicable, viz.:—

Architectural carving in wood and stone, for ecclesiastical and other purposes, carving in ivory, bone, pearl, and metals, and engraving, wood and metal cutting, saw and other tool handles, carving in wood and type, metal blocks for paper-makers, calico and manufacturing printers, and floor-cloth manufacturers, oak carving for churches and Gothic furniture, picture-frame carving, frames, open tracery for pianoforte makers, and inlaying and other work for cabinet-makers, engravings in brass, copper, and zinc, for door and window plates, brass letters on shop or other windows, medal-and engraving, ciphers &c. carving and moulding for brush-handles in wood and pearl.

The machine is also adapted to cut and carve ornamental stone-work, such as Gothic window heads, and tops, monumental tablets, and ornaments for churches and other public buildings, which may be multiplied with unerring fidelity. It will also copy carvings in bas-relief in wood, stone, or metal.

All the above enumerated works are executed with great finish, and at an enormous saving as compared with hand labour, and from one pattern any one may be produced by a simple and easy adjustment of the machine.

In the new-hands'-trade alone, a profit amounting to 15 per cent. upon the whole of the proposed capital of 50,000l. will be realised, even at a reduction of 50 per cent upon the present rates paid to the workmen engaged in that trade, and not employing more than one-tenth of the above capital.

Applications for shares and prospectuses to be made to the Secretary, Mr. W. TURNER, at the Works, or to H. WICKENS, Esq. 4, Tokenhouse-yard, Bank, the Solicitor to the Company.

NOTICE. No further applications for shares in this Company will be received after the 20th instant.—By order of the Board,

WALTER TURNER, Secretary.

THE PERMANENT WAY COMPANY beg to call the attention of Boards of Directors, Engineers, and others interested in railways already made, to the important advantages obtained by substituting the rails, as exhibited by the following extract from the Report of the Directors of the Eastern Counties Railway, to the half yearly meeting of shareholders held on the 28th August. This invention not only saves a large current expense in keeping up the permanent way, but by an ensuring smoother carriages to run more smoothly decreases the wear and tear of both the rails and rolling stock, and adds greatly to the comfort and security of the passengers. The Patent Fishplates have been largely adopted by the Engineers of the following railways in this country and abroad:—

Eastern Counties Railway.
East Indian.
Edinburgh and Glasgow.
Egyptian.
London, Brighton, and South Coast.
London and North Western.
Midland.
Monmouthshire.
North and South Western Junction.
Waterford and Limerick.
York and North Midland.
York, Newcastle and Berwick.

And are also in course of adoption at many other railways. Portions not yet furnished with rails the company drew attention to W. H. Barlow's patent rail, as by its adoption the permanent way may be constructed at the lowest rate per mile, and with greater durability than by any other known system. Rails similar to those largely adopted by the engineers of the following:—

Great Western.
Dublin and Belfast Railway.
London and North Western.
Midland.
Midland Great Western (Ire.) do.
Newport and Abergavenny.
South Wales.
West Cornwall and
Hereford, Ross, and Gloucester.

The Patent Chair-iron Keepers of Mr. P. W. Barlow are adapted to double-headed rails of any pattern, and supersede or replace wooden keepers. They are adopted on the

East Indian.
Midland.
East Lancashire.
London, Brighton, and South Coast.
London and Greenwich.
Manchester, Sheffield, and Lincolnshire.
North Staffordshire.
Shrewsbury and Chester.
Shrewsbury and Hereford.
South Eastern.
Taff Vale.
Vale of Neath.
Wilts, Somerset, and Weymouth.

and several other lines.

The Permanent Way Company confine themself entirely to the granting licenses to use their various patents which is done upon very moderate terms. Every information may be obtained by applying to Mr. CHARLES MAY, C.E. 4, Great George-street, Westminster; or to WILLIAM HOWDEN, Secretary, 28, Great George-street.

Extract from the report of the Directors of the Eastern Counties Railway to the half-yearly meeting of Shareholders held on the 28th of August:—

"The system of 'fish-jointing' has hitherto fully borne out Mr. Ashcroft's reports, as giving a smoother road, with less wear and tear to the rolling stock, and at a much reduced expenditure in maintenance."

Extract from the report presented to the half-yearly meeting of the West Cornwall Railway, held on the 28th August:—

"The result of the three months' working of the new rails between Penzance and Camborne has fully borne out the expectations which had been formed as to the durability of the descriptions of rail which, under Mr. Brunel's advice, has been employed in the construction of that part of the line; and the attention of the board having been directed to the best state of the permanent way on the old lines, and the economy and efficiency of the working which would arise from relaying that portion with Barlow's rails, they have given orders for this to be done, and it is now nearly completed."

Extract from the Directors' report to the last Half-yearly Meeting of the London and Greenwich Railway:—

"The trial afforded by six additional months' working has also confirmed your directors in the favourable opinion expressed by them respecting the cast-iron road of Mr. Peter W. Barlow."

It has fully answered the expectations formed of it, and there can now be no doubt that its adoption, coupled with the lessened wear and tear from the use of light engines, will effect a material saving in the maintenance of permanent way.

TO BRICKMAKERS AND OTHERS.

WANTED, by Messrs. Brassey and McCormick about 6,000,000 good, sound, hard-burnt GREY STOCK BRICKS, to be delivered on their works at the West India Docks, Blackwall, during the summer of 1858. Or any person having a field of good Brick earth, with open ground to the River Thames, for sale or Lease, may be treated with. Tenders and particulars for sale or Lease may be treated with. Tenders and particulars for such sale or lease to be addressed to Mr. JOHN MILBOY, Welwyn, Herts, from whom any further necessary information can be obtained.—October 14th, 1857.
